The United States Mail steamship Hormann, Capt. E. Grabtree, from Bremen 20th, and Southampton 25th ult.,

with a small quantity from Southampton. The Have agent of the Cunard steamers again lowered their rate of freight to \$15 per ton measurement, on purpose to compete with the Hermann and Franklin, although \$25 is charged on goods shipped from Liverpool. These unworthy proceedings of the British Packet Company, will, no doubt, soon be met with some decisive action on the part of the proprietors of the American mail steamers.

The Hermann left Southampton at 4 P. M. on the 15th nit, and her advices have been anticipated by the British and North American steamer Europa, arrived from Liverpool.

The day fixed for the departure of the Hermann from Southampton by the official post office programme, was Wednesday, the 23d April, and it is the object of the Post Office Department to provide a semi-weekly mail from and with Surope, by intermediate departures with the Cunard ships, from both sides. It appears, however, this intention has been frostrated by the postponement of the Hermann's sailing till the 25th ult. (Friday.) The consequence is that her voyage for all practical mail purposes, has been made is vain. The steamer reached Southampton at noon on the 22th ult. from Bremen, and as only a smail quantity of coal was required, she might easily have taken her find on board, and started on the evening of Wednesday, the 23d—the day appointed.

It is necessary that these facts should be brought under the notice of the Fost office Department, as these irregulerities are most detrimental to the public service, and damaging to the intends of American ocean steamers as a punctual medium of conveyance of mails and intelligence.

The repairs to the English schooner Hope, of Yar-

ers, as a punctual medium of conveyance of mails and intelligence.

The repairs to the English schooner Hope, of Yarmouth, run down by the Hermann, in the British channel, were expected toanmeant to over \$2.00, the whole of which falls upon the Cesan steam Navigation Company.

When the Hermann it is southampton the U. S. frigate St. Lawrence was still lying there. Capitain Sands and his officers had made the mercuse most popular, and were receiving unbounded hespitalities from the best families and society of the neighborhood.

The establishment of a mail steampacket communication between Southampton and the Brazils and River Plate had commenced meas successfully, the second steamer, the Tay having re-urned with over 100 passengers, besides having had a considerable number at Lisbon.

Theatrical and Musical.

Bowney Tracarse.—The evening a very rich treat is offered for the amusement of the dramatic public. Mr. Thomas S. Hamblin, the great tragedian, appears in his inimitable character of Macbeth. It is seldom that the frequenters of theatres have an opportunity of witnessing genuine tragic performances. We mean by the term genuine, a proper conception of the author, pure reading, and no ranting. Mr. Hamblin, both by education and great natural gifts, is every way suited to this station, and no doubt will draw an immense audience to night. The entertainments will conclude with the drama of the "Denounces." Mas Wemys, Mr. Tilton, and other eminent artists will appear in the tragedy.

As this is the last representation of this magnificent production, no doubt the house will be crowded in every department. The grandum of the spectacle will long be remembered—the scenery is so goy-grous. We advise, then, all those who have not seen it, as well as those who have to give a strong testimony, this evening, that they appreciate the exertions of the management. Neno's Garmas.—There will be no performance tohight but on Monday evening Mile. Caroline Rourset, the charming Terpiciberson artist, will take her fare well
benefit. The pieces selected are, "Ladles Beware." the
first act of "Gisselle," and the ballet entitled "Les
Folice." There can be little doubt but that the house
will be crowded in every department.

Bearon's Theorem.—A bill of great variety for this
evening. There excellent pieces—the first is the comely
of "Mint," which will be followed by the excellent
comedy of the "Englishmen in Paris," and all will
conclude with the splendis buriesque of the "World's
Fair." Neady all the famous artists of this very prosperoon establishment will appear in those pieces. It is
searely necessary to say that there will be a full house,
as we believe all nights are equal, the theatre being filled

National Trigaring —The beautiful sketch entitled "A Morning Call" will commence the entertainments and they will terminate with the grand fairy spectacle of "Thalaba, the Destroyer or the Eurning Sword," which is witnessed overly night with the greatest enthusiasm. We advise those who are fond of spectacle representations to visit the National, where they will see the most beautiful distriling seriery, hear the sweetest dramatic music, and witness excelent acting. From the great rush to see this magniteen infair, we believe it will have a very long and successful run.

Becomiss's legacys.—There has been no greater hit in the masked way, for some time past, than the production of the "thild of the Regiment." The arrangement of the instrumentation, by lodge, is the theme of general approbation. We have never heard on orchestra so exquisitely tuned and well selected—the whole more with the precision of a single instrument. Mary Taylor is beyond question the most versaule actress in the country—she has never appeared to such advantage as at froughan's layesum. This evening the "Child of the Regiment" is repeated, with other spiendid entertainments. Pancing by Ducy Barre. Brougham is going ahead famously.

Baseth's Meaners—One of the most attractive bills of the seven is offered for to day's performance. By very expectal request, the domestic drama of the "Drunkard" will be performed this afternoon. This evening, three very entertaining pieces are announced.—The Rough Diamond," "A Village Tais," and "The Miscries of Human Lite." We consider this an extraordinary bill, and we feel confident that the house will be filled, as usual, at an early hour on both afternoon and evening.

The robbery of Mr. Kleim's jewelry store is fastened upon two of his own sons, aged 19 and 21, who obtained a false key for the purpose, from a cousin named Landiss, a locksmith by trade. The sons appear to be hardened scamps, having previously threatend to be revenged upon their father for stinting them in regard to money. He has been robbed by them repeatedly before this last transaction, by which his whole stock in trade was swept off.

Capt. Norris Stanley, sigd 50, a native of Wales, who came to this contriv with the late John Jacob Astor, and who was engaged in several battles on board American vessels of war during the revolution, died at his residence in this city last evening.

The developements in relation to a gang of robbers in Shippen street showing their plans for robbing a jeweler named Boss, are so similar to the particulars of the celebrated Eurd robbery as to induce a belief that these offenders were guilty of that mysterious transaction.—The launt where they were arrested is close to the spot on which that murder was perpetrated, and would account for the manner in which the murderers so suddenly disappeared, though the pursuers were just at their hools.
